SUMMARY

Computer science student with 1+ years' experience in programming with an emphasis on front end and backend technologies. Dedicated to implementing web apps and passionate about learning more in this field.

SKILLS

- **Frontend:** JavaScript, Tailwind CSS, React, Shadcn.
- **Backend:** Nodejs, Expressjs.
- **Databases:** SQL, PostgreSQL, Sqlite.
- **Other:** C, C++, Docker

PROJECTS

Todo App

A fullstack dockerized todo app which includes User Authentication, Task Management, Secure JWT-based login system and Progress Tracking.

Tech-Stack: Vanilla Js, Express.js, PostgreSQL, Prisma, Docker.

NewsMania

NewsMania is a simple, calm, and welcoming space where you can explore news from different categories without feeling overwhelmed. Newsmania also provides a dedicated space for your personal notes letting you note down important notes while going through news. It provides secure registration/login system using JWT.

Nike Clone

A static Nike website with Sleek UI showcasing my skills in UI/UX and Frontend development.

Tech-Stack: React, Tailwind CSS.

EDUCATION

Butwal Multiple Campus

Bachelor's of Science in Computer Science and IT

Butwal, Rupandehi

Sainamaina Model School

+2 science with computer

Sainamaina-1, Rupandehi

EXPERIENCE AND CERTIFICATION

CERTIFICATION: [React](#) , [SQL](#)

EXPERIENCE: Actively participating in tech related events. Was part of the organizing community for the national level hackathon BMC InnovateX.
